

:::: Scope of Work Document

Scope of Work (SOW) - Is an agreement between an employee/contractor and employer outlining services work to be completed by the employee. SOW's are used commonly in technology jobs and contract work.

Please submit your Scope of Work Document by **Jul 2** detailing the project you plan to complete. (Make a copy and answer the questions below about your Application. You will submit with your Final Project PowerPoint/Slideshow)

Deliverables:

Describe your application in detail. What does it do? How does it work? My application is to be a text-based game similar to that of Oregon Trail (minus the animations). Players will be able to input decisions, such as "Yes" or "No" to progress the story. There will be "encounters" where the player will be forced to make a decision that has actual consequences.

Milestones:

Core Features(min 3)

1. **Text-Based GUI with questions prompting the user to make a decision, such as continuing the adventure and the ability to "hunt" for food.**
2. **Saving the current player's distance, inventory, etc.**
3. **Different "encounters" that have a random chance of appearing throughout the player's gameplay.**

Special Features - How do you want it to work in the future after you have more time to develop the idea and your programming skills? I am not planning on pursuing a career or hobby in computer science or coding, but I do hope that I will be happy with my first ever project which would be this final.

Timeline: FINAL PROJECT & PRESENTATION: Jul 2, 2025.
